

## Soft Reflex Hanger

Make sure you are visible in the dark with a reflective hanger!

Choose from several standard models or contact us if you want to create your own design. Print under the reflective surface. Packed with ball chain or string and needle.

Attach the hanger for exposure around knee height. Attach a tape on each side of the body. The reflectors must hang freely and be visible from the front, back and the sides. Replace the reflex if it is damaged or dirty. In the dark, the reflector must also be worn in densely populated areas.

The product is approved according to CE EN 17353:2020 B1. In order to fulfill the requirement in the standard, at least two hangers must be worn at the same time as described above.

For backside print, 15% is added to the regular price.
